Audit & Assurance

Our audit of your financial statements does more than report on past performances – it includes recommendations for improving efficiency and profitability.

We highlight areas of concern and determine pragmatic solutions. And we work with your personnel to maximize efficiency. Frequently, we help interpret financial data for stockholders, boards of directors, regulatory authorities and bankers on behalf of our clients. We are a single-source resource for assisting you in meeting your financial and regulatory reporting requirements year-round, not just at year-end.

SERVICES INCLUDE:

- ◆ Financial Statement Audit, Compilation and Review
- ◆ Employee Benefit Plan Audits
- ◆ HUD-regulated Property Audits
- ◆ Agreed-Upon Procedures
- ◆ Financial Institution Audits
- ◆ Nonprofit Organization Audits
